Highlights

- Resolute launches institutional placement and 1-for-1.11 accelerated non-renounceable entitlement offer to strengthen balance sheet and provide financial platform for growth
- Underwritten A\$140 million component to be used to pay down debt, reducing net debt position from US\$156 million to US\$65 million
- Up to an additional A\$60 million from a non-underwritten retail entitlement offer component (if fully subscribed) to further reduce debt, provide general working capital and fund growth initiatives, including the potential expansion optionality at Syama North
- Equity Raising provides refreshed management team with financial flexibility to continue to execute on demonstrated operational turnaround

Resolute Mining Limited (ASX/LSE: RSG, “**Resolute**” or the “**Company**”) is pleased to announce the launch of a fully underwritten institutional placement and a partially underwritten 1-for-1.11 accelerated non-renounceable entitlement offer (“**Equity Raising**” or the “**Offer**”) of new fully paid ordinary shares in the Company (**New Shares**) at an offer price of A\$0.16 per New Share to strengthen the Company’s balance sheet and provide a financial platform for growth.

The Equity Raising comprises an underwritten component of A\$140 million which will be used to pay down the Company’s Syndicated Loan Facility. Post Equity Raising, net debt will be reduced from US\$156 million to US\$65 million, with US\$84 million remaining outstanding on the Company’s Syndicated Loan Facility, the majority of which is due in March 2024¹.

Under the non-underwritten retail component of the entitlement offer, in the event the retail offer is fully subscribed, up to an additional A\$60 million can be raised. These proceeds, in conjunction with pro forma cash reserves of A\$77.3 million and future free cash flow, will be used to further repay debt, fund general working capital and costs of the Equity Raising, in addition to supporting the Company’s Syama North expansion plan.

The Syama North expansion plans include drilling and test work to convert Resources to Reserves and completion of the Pre-Feasibility Study in Q1 2023 ahead of the commencement of a Definitive Feasibility Study in Q2 2023. Development of the Syama North resource is expected to provide ore feed for a low capex expansion of the Sulphide circuit to achieve economies of scale and reduce AISC per ounce.

Terry Holohan, CEO and Managing Director commented:

“Resolute’s performance has steadily improved with four consecutive quarters of increased production. This equity raising is the final step in Resolute’s transition to a sustainable gold producer with a de-

risked balance sheet. The Company is now in a strong position to pursue a new open pit operation at Syama North, together with low capital expansion options for the Sulphide circuit.”
