Excellon Resources Inc.

Notes to the Condensed Consolidated Financial Statements

For the three and six months ended June 30, 2023 and 2022

(unaudited) (in thousands of U.S. dollars, except share and per share data)

1. GENERAL INFORMATION

Excellon Resources Inc. (the "Company" or "Excellon") is engaged in the acquisition, exploration, and advancement of mineral properties. The Company is listed on the Toronto Stock Exchange (the "TSX") under the symbol EXN, the OTCQB Venture Market (the "OTCQB") in the United States under the symbol EXNRF, and the Frankfurt Stock Exchange under the symbol E4X2. Excellon's vision is to realize opportunities for the benefit of its employees, communities and shareholders, through the acquisition of advanced development or producing assets with further potential to gain from an experienced management team. The Company is advancing a portfolio of gold, silver and base metals assets including Kilgore, an advanced gold exploration project in Idaho; and Silver City, a high-grade epithermal silver district in Saxony, Germany.

Excellon is domiciled in Canada and incorporated under the laws of the Province of Ontario. The address of its registered office is 10 King Street East, Suite 200, Toronto, Ontario, M5C 1C3, Canada. These condensed consolidated financial statements were approved by the Board of Directors on August 14, 2023.

2. BASIS OF PRESENTATION AND GOING CONCERN

a) *Statement of compliance and going concern*

The Company prepares its condensed consolidated financial statements in accordance with International Accounting Standard 34, *Interim Financial Reporting*. Accordingly, certain information and note disclosures normally included in the annual financial statements prepared in accordance with International Financial Reporting Standards ("IFRS"), as issued by the IASB, have been omitted or condensed. These condensed consolidated financial statements should be read in conjunction with the annual consolidated financial statements for the year ended December 31, 2022.

In January 2022, the Company announced that it was assessing the economic viability of mining at Platosa at achievable dewatering rates and with acceptable capital expenditures, beyond mid-2022. Underground and surface drilling continued throughout H1 2022; however, based on drilling results and consideration of economic factors, production ceased and the Platosa Mine was placed on care and maintenance in early Q4 2022. Revenues ceased after the wind down of operations and, therefore, the Company must pursue other financing transactions to fund its working capital requirements, corporate expenditures and exploration activities. The Company incurred losses, has a shareholders' deficit of \$3,829 and negative working capital of \$23,058 at June 30, 2023.

These conditions indicate the existence of material uncertainties that may cast significant doubt on the Company's ability to continue as a going concern and therefore realize its assets and discharge its liabilities in the normal course of business and, accordingly, the appropriateness of the use of accounting principles applicable to a going concern. The Company's ability to continue as a going concern is dependent on its ability to refinance its Convertible Debentures (Note 6), obtain the necessary financing to advance its exploration projects and meet its ongoing corporate overhead costs. Although the Company has been successful in obtaining debt and equity financing in the past, there is no assurance that it will be able to do so in the future or that such arrangements will be on terms advantageous to the Company. The Company is considering various financing, corporate development opportunities and strategic alternatives that may include acquisitions, divestitures, mergers or spin-offs of the Company's or third parties' assets, as applicable.

Excellon Resources Inc.

Notes to the Condensed Consolidated Financial Statements

For the three and six months ended June 30, 2023 and 2022

(unaudited) (in thousands of U.S. dollars, except share and per share data)

These condensed consolidated financial statements are prepared on a going concern basis, which assumes that the Company will continue for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of business. Accordingly, these condensed consolidated financial statements do not include adjustments to the recoverability and classification of recorded assets and liabilities and related expenses that might be necessary should the Company be unable to continue as a going concern and therefore be required to realize its assets and liquidate its liabilities in other than the normal course of business at amounts different from those in the accompanying condensed consolidated financial statements. Such adjustments could be material.

b) San Pedro deconsolidation

As indicated in Note 8, San Pedro Resources, S.A. de C.V. (“San Pedro”), a Mexican subsidiary of the Company, is party to a legal claim which resulted in the recognition of a \$22 million provision for litigation in Q3 2021.

On November 30, 2022, following the wind down of mining operations at the Platosa mine and, in turn, milling operations, San Pedro voluntarily filed a petition for bankruptcy with the Mexican Bankruptcy Court (Instituto Federal de Especialistas de Concursos Mercantile). In March 2023, the Court-appointed auditor completed its review of San Pedro's petition and, on March 28, 2023, the Court declared San Pedro bankrupt. The Court appointed a trustee to take possession and control of, and administer, San Pedro for the benefit of its creditors. At the time it was declared bankrupt, San Pedro had been on care and maintenance since October 2022. As a result of the loss of control, the Company deconsolidated the assets and liabilities of San Pedro from Excellon's consolidated statement of financial position, including the \$22 million provision for litigation (Note 8). In accordance with IFRS requirements for the deconsolidation of a foreign subsidiary, the Company also recognized a non-cash loss of \$6,923 from the reclassification of the currency translation adjustment from accumulated other comprehensive loss to net income before income taxes.

c) Summary of significant accounting policies, judgments, and estimates

These condensed consolidated financial statements have been prepared using the same accounting policies, methods of computation, judgments and estimates as the annual consolidated financial statements of the Company as at and for the year ended December 31, 2022.

d) Subsequent events

Termination of the La Negra Acquisition, related Debenture Restructuring and financing

On January 8, 2023, the Company entered into a definitive acquisition agreement (the “Acquisition Agreement”) to acquire the past-producing La Negra Mine located in Querétaro State, Mexico from Dalu S. à r.l., an entity owned by an investment fund managed by Orion Resource Partners, for aggregate consideration of \$50 million paid through upfront payments totalling \$20 million, payable in common shares of the Company, and a further \$30 million of deferred, contingent consideration payable in common shares of the Company or in cash at the Company's option, following the restart of commercial production (the “La Negra Acquisition”).

Excellon Resources Inc.

Notes to the Condensed Consolidated Financial Statements

For the three and six months ended June 30, 2023 and 2022

(unaudited) (in thousands of U.S. dollars, except share and per share data)

Concurrent with the execution of the Acquisition Agreement, Excellon entered into a binding term sheet with holders representing approximately 66^{2/3}% of the principal amount of outstanding Convertible Debentures (the “Debenture Holders”) to, among other things, convert 25% of the Convertible Debentures into equity and reprice and extend maturity of the remaining principal outstanding upon closing the La Negra Acquisition (the “Debenture Restructuring”).

On April 13, 2023 the Company announced the launch of a non-brokered private placement of up to 28,571,428 subscription receipts (the “Subscription Receipts Offering”), at a price of C\$0.35 for aggregate gross proceeds of up to C\$10 million.

On July 20, 2023, the Company unexpectedly received a notice of termination of the La Negra Acquisition from the seller, Dalu S.à r.l., an entity owned by an investment fund managed by Orion Resource Partners (“Orion”). Prior to receipt of the termination notice, the Company had been in discussions with Orion regarding options to advance the acquisition of La Negra to closing, including securing the necessary financing. Consequently, the Company also announced the termination of the Subscription Receipts Offering. The Company also held discussions with Debenture Holders in July 2023, in accordance with the Debenture Restructuring term sheet agreement, as the binding obligation of the agreement dated January 8th, had lapsed.

Following the termination of the La Negra Acquisition, the Company significantly reduced its workforce, who had primarily been retained to assist in the restart of the La Negra Mine.

As the Company expected to account for the La Negra transaction as an asset acquisition, \$1.4 million in transaction costs have been capitalized to Other current assets at June 30, 2023. Following the termination of the La Negra transaction, \$0.8 million of capitalized transaction costs will be written-off (with a corresponding reduction in Trade and other payables), and \$0.6 million will be expensed in Q3 2023.

Extension of Convertible Debentures

On July 24, 2023, the Company announced that it had entered into a binding agreement with holders of greater than 66^{2/3}% of the Convertible Debentures, to extend the maturity date of the Convertible Debentures by 367 days from July 30, 2023 to July 31, 2024. See Note 6 for further details.

(unaudited) (in thousands of U.S. dollars, except share and per share data)

Period ended June 30, 2023

Opening net book value	1,565	13,756	5,189	20,510
Exchange differences	35	-	-	35
Closing net book value	1,600	13,756	5,189	20,545

- (1) In 2019, the Company entered into an option agreement with Globex Mining Enterprises Inc. (“Globex”) to acquire a 100% interest in the Bräunsdorf exploration license of the Silver City Project in Saxony, Germany.

The Company paid total aggregate consideration of C\$500 in cash and issued common shares valued at C\$1,600 over a period of three years to maintain its option on the Bräunsdorf exploration license. In Q3 2023 the Company exercised the option to acquire the license and in accordance with the option agreement, Globex was granted a gross metals royalty of 3% for precious metals and 2.5% for other metals, both of which may be reduced by 1% upon a payment of \$1,500. Additional one-time payments of C\$300 and C\$700 are to be made by the Company following any future announcement of a maiden mineral resource estimate on the property and upon achievement of commercial production from the project, respectively.

In 2021, the Frauenstein, Mohorn and Oederan exploration licenses were granted to the Company following applications to the Sächsisches Oberbergamt (Saxon Mining Authority), increasing the Silver City ground position by 17,600 hectares.

- (2) In 2020, the Company acquired 100% ownership of the Oakley Project in Cassia County, Idaho, as part of the Otis acquisition.

Otis had entered into a definitive option agreement with Centerra (U.S.) Inc. (“Centerra”), a subsidiary of Centerra Gold Inc., whereby Centerra can earn up to a 70% interest in the Oakley Project in exchange for total exploration expenditures of \$7,000 and cash payments to the Company of \$550 over a six-year period.

In Q1 2023, Centerra met the requirements for, and exercised the First Option to earn a 51% interest in the Oakley Project, by incurring \$4,500 in exploration expenditures and by making cash payments of \$250 over a three-year period. There was no accounting impact on the exercise of the First Option. Centerra has an option to acquire a further 19% of the Oakley Project, for a total of 70% (the “Second Option”), by incurring an additional \$3,000 in exploration expenditures and making a cash payment of \$300 over three years. On April 4, 2023, Centerra provided notice of its intention to proceed to the Second Option. Following the exercise of the Second Option (or alternatively Centerra terminating such option), the parties shall form a joint venture and fund expenditures going forward on a pro rata basis. Should Excellon’s interest fall below 10% during the joint venture, that interest will automatically convert to a 2% NSR royalty that is not subject to a buyback provision.

4. TRADE AND OTHER PAYABLES

The Company’s payables comprise trade payables, accruals and other payables as at June 30, 2023. Trade payables comprise \$3,256 of the \$9,365 balance (December 31, 2022 – \$4,602 of the \$7,817 balance), of which \$1,540 relate to Mexico (December 31, 2022 – \$2,611). Accruals and other payables of \$6,109 (December 31, 2022 – \$3,215), of which \$3,123 relate to Mexico (December 31, 2022 – \$1,470) include administrative and operating costs, accounting and legal services and withholding taxes. At June 30, 2023, the Company had amounts owing to management and directors of the Company of \$0.4 million. Following the termination of the La Negra transaction, \$0.8 million of capitalized transaction costs will be written-off with a corresponding reduction in Trade and other payables in Q3 2023 (Note 2).

Excellon Resources Inc.

6. CONVERTIBLE DEBENTURES

On July 30, 2020, the Company closed a private placement (the “Financing”) of secured convertible debentures (the “Convertible Debentures”) for total proceeds of C\$17.91 million, maturing on July 30, 2023, and convertible by the holder into common shares of the Company prior to maturity at a conversion price of C\$5.30 per common share. The Company also issued 1,143,429 common share purchase warrants (“Warrants”), with an exercise price of C\$5.75 which expired unexercised on July 30, 2023.

The Convertible Debentures bear interest at an annual rate of 5.75%, payable in cash semi-annually. Interest on the Convertible Debentures may alternatively be paid in common shares of the Company at the Company’s option based on the 10-day volume-weighted average price (“VWAP”) of the common shares prior to the payment date at an effective annual rate of 10%.

On July 27, 2022, the Company received approval from the debenture holders to transfer the security under the Convertible Debentures from the Company’s Mexican assets to its Kilgore assets in Idaho (the “security transfer”). The security transfer was effective in Q3 2022, and in Q4 2022 cancellation of the Mexican

Excellon Resources Inc.

Notes to the Condensed Consolidated Financial Statements

For the three and six months ended June 30, 2023 and 2022

(unaudited) (in thousands of U.S. dollars, except share and per share data)

security was registered with the applicable authorities.

On July 24, 2023, the Company announced that it had entered into a binding agreement with holders of greater than 66^{2/3}% of the Convertible Debentures, to extend the maturity date of the Convertible Debentures by 367 days from July 30, 2023 to July 31, 2024 (the "Extension"). The Extension will be implemented pursuant to the terms and conditions of a supplemental indenture to be entered into between the Company and TSX Trust Company, as trustee and collateral agent. In consideration for the Extension, the Company agreed to a fee equal to 6% of the aggregate principal amount of the Convertible Debentures payable in common shares of the Company priced at C\$0.156 per common share. The parties also commenced further negotiations toward a broader restructuring of the Convertible Debentures, including a further extension of the maturity date. The Extension is subject to certain conditions including, but not limited to, the receipt of all necessary regulatory and securityholder approvals, including the approval of the Toronto Stock Exchange and the approval of the holders of the Convertible Debentures, which is anticipated to be obtained by way of an instrument in writing executed by holders of the Convertible Debentures holding not less than 66^{2/3}% of the aggregate principal amount of the Convertible Debentures. The Company has been waiting to receive all necessary regulatory approvals and hence the Extension has not been completed. Although the instrument in writing relating to the Extension has not been executed as at the date hereof, the holders of the Convertible Debentures party to the agreement with the Company agreed to approve, or cause to be approved, the waiver and forbearance of the Company's obligations arising from, or in connection with, the maturity of the Convertible Debentures on July 30, 2023.

The Company elected to pay the June 30, 2022, December 31, 2022 and June 30, 2023 interest payments in common shares valued at C\$888 (\$694), C\$903 (\$664) and C\$888 (\$668), respectively. The Company recorded interest expense of C\$2,471 (\$1,942) and C\$3,088 (\$2,289) for the six months ended June 30, 2022 and 2023, respectively.

DSUs	-	33	-	68
	85	72	193	260

8. PROVISION FOR LITIGATION AND DECONSOLIDATION OF SAN PEDRO

A Mexican subsidiary of the Company, San Pedro Resources S.A. de C.V. ("San Pedro"), is party to an action by a claimant (the "Plaintiff") in respect of damages under a property agreement regarding the La Antigua mineral concession ("La Antigua"), a non-material mineral concession. La Antigua is subject to an exploration and exploitation agreement between San Pedro and the Plaintiff dated December 3, 2006, with a purchase option and, among other obligations, a 3% NSR if the property is brought into production (the "Antigua Agreement"). Pursuant to the Antigua Agreement, San Pedro had the right to purchase absolute title to La Antigua including the NSR royalty upon payment of \$500. San Pedro was under no contractual obligation to put the mine into production and has not done so. The Plaintiff was initially awarded damages of \$700 in the court of first instance. On appeal by both parties, the appellate court confirmed the initial decision but, subsequently, in late 2019, granted the Plaintiff an award of \$22,175 (the "Judgment"), which San Pedro and the Company both believe is multiple times greater than any income the applicable NSR royalty could ever have produced had La Antigua ever been put into commercial production. In Q3 2021, San Pedro's appeal of this decision was fully and finally dismissed by the Mexican Federal Court, with no further right of appeal in Mexico. Accordingly, the Company recorded a corresponding provision for litigation of \$22 million.

The Judgment is solely against San Pedro as defendant and the Company believes that the Plaintiff has no recourse against the Company's other assets in Mexico, Idaho, Saxony, Germany or Canada. San Pedro was a wholly owned, indirect subsidiary of the Company that holds the Miguel Auza processing facility and various mineral concessions.

(unaudited) (in thousands of U.S. dollars, except share and per share data)

San Pedro continued to operate in the ordinary course until it had processed the last ore from the Platosa Mine following its completion of production and transition to care and maintenance in early Q4 2022 (Note 2). In 2022, the Plaintiff registered the Judgment against the real property and certain assets owned by San Pedro. With no further ore to process, and the continuing recourse of the Plaintiff under the Judgment, in Q4 2022 San Pedro voluntarily filed a petition for bankruptcy with the Mexican Bankruptcy Court, which was accepted for adjudication on December 15, 2022.

In Q1 2023, the Court-appointed auditor completed their review of San Pedro's petition and confirmed San Pedro's insolvency. The Company received notice that San Pedro was declared bankrupt by the Mexican Bankruptcy Court effective March 28, 2023. As a result of the loss of control, the assets and liabilities of San Pedro were deconsolidated from the condensed consolidated financial statements of the Company. The gain on deconsolidation of San Pedro (\$24,255) reflected the provision for litigation (\$22,303), payables and accruals (\$1,034), post-retirement provision (\$193) and rehabilitation provision (\$725). In accordance with IFRS requirements for the deconsolidation of a foreign subsidiary, the Company also recognized a non-cash loss of \$6,923 on the reclassification of currency translation adjustment from accumulated other comprehensive loss to net income before income taxes.

9. EXPENSES BY NATURE

(a) Administrative expense consists of the following:

	Three months ended		Six months ended	
	June 30 2023	June 30 2022	June 30 2023	June 30 2022
	\$	\$	\$	\$
Office and overhead	304	457	772	1,017

10. FINANCE EXPENSE

Finance expense consists of the following:

	Three months ended		Six months ended	
	June 30 2023	June 30 2022	June 30 2023	June 30 2022
	\$	\$	\$	\$
Interest expense - Convertible Debentures	1,298	1,120	2,290	1,942
Interest expense - other	2	8	6	38
Accretion on provisions	17	58	30	121
Finance expense	1,317	1,186	2,326	2,101

11. FINANCIAL INSTRUMENTS

Fair values of non-derivative financial instruments

All financial assets and financial liabilities, other than derivatives, are initially recognized at the fair value of consideration paid or received, net of transaction costs, as appropriate, and are subsequently carried at fair value or amortized cost. At June 30, 2023, the carrying amounts of trade and other payables and other current assets are considered to be reasonable approximations of their respective fair values due to the short-term nature of these instruments.

Fair value hierarchy

The three levels of the fair value hierarchy are as follows:

- Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2 – Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly; and
- Level 3 – Inputs that are not based on observable market data.

	Fair value hierarchy	June 30 2023 \$	December 31 2022 \$
Financial assets			
Fair value through profit and loss			
Warrants	Level 2	2	5
Trade receivables from provisionally priced sales	Level 2	-	690
		2	695

There were no transfers between levels 1, 2 or 3 during the three months ended June 30, 2023.

Valuation techniques and inputs used to determine fair values include:

- Warrants – based on a Black-Scholes model which uses quoted observable inputs; and
- Trade receivables from provisionally priced sales – key inputs are payable metal and future metal prices, marked-to-market based on a quoted forward price and final settlement weights and assays.
