

Must-have Aussie Lunar types!

A sumptuous Lunar celebration, and an ideal gift for those born in the Year of the Tiger – 1914, 1926, 1938, 1950, 1962, 1974, 1986, 1998 and 2010 – this superb RAM series has, unsurprisingly, instantly struck a chord with Australian collectors.

Created specifically for the expanding Asian market, with few of these coins therefore destined to reach our shores, the series comprises three Australian legal tender presentations. The most prestigious of the series, the first of those collections unites a 40mm .999 silver 1oz Proof with a 30mm

\$25 – crafted from half a troy ounce of pure .9999 gold. Also the most exclusive release of the series, the limited edition has been set at just 3,800! Eminently desirable, the second collection comprises a 17.53mm .9999 gold 1/10oz Proof \$10 and the Silver Proof, with the limited edition set at 10,000. Restricted to a mintage of 30,000, and a must-have for crown collectors, the Silver Proof is also available individually.

Given the importance of the Chinese Calendar in Asia, and the size of the Asian coin market, these ostensibly generous mintages are in fact tiny – as are our allocations from those mintages. Indeed,

although we were able to exploit our extensive international contacts to ensure our clients got a piece of the action, our limited stock is sure to sell out at speed. Don't risk disappointment – guarantee supply today!

An official Australian legal tender issue, struck by the RAM, the .999 fine 1oz Silver Proof is set in an official case with a numbered Certificate of Authenticity
